Course Work

Data Structures and Algorithms

Object-Oriented Programming (OOP)

Software Engineering , Agile Methodology

Database Management System(DBMS)

Operating System (OS), Networking

Detail-oriented professional with a strong foundation in computer science and a passion for coding. Known for analytical thinking, adaptability to new technologies, and collaborative teamwork in challenging environments. Seeking a role in web development and system design to deliver innovative solutions.

Experience

Web Developer

WEBS Technology / 07/2022 - 08/2022

- Developed and maintained websites using HTML, CSS, and JavaScript.
- Collaborated with design team to meet client specifications for website design.
- Debugged and fixed bugs in existing code.([LINK](#))

Front end Developer intern

IBM / 06/2023

- Collaborated with developers, meeting tight deadlines and exceeding client expectations.
- Conducted rigorous testing, minimizing bugs in software applications.
- Assisted codebase optimization, achieving 30% performance improvement and faster loading times. ([LINK](#))

Education

Bachelor of Technology in Computer Science Engineering

JB Institute of Technology / 07/2020 - Present
Dehradun

Projects

Online Examination Portal

WEBS Technology / 07/2022 - 08/2022

- Provide a user-friendly registration process with validation checks for email addresses and passwords.
- Ensure proper categorization of questions by subject, difficulty level, and topic.
- Design an intuitive and responsive **student interface** for taking exams

Social Network Application

Self Project

- Developed dynamic Social Network Application with React, Node.js, and MySQL.
- Implemented Full-stack Social Media App with hooks, Context API, and React-query.
- Enhanced security with JWT and Cookies for authentication.
- Optimized user experience with advanced front-end techniques.

Activities

- Technical Event Coordinator, Member of IEI, Volunteer(NGOs)
- Active participation in coding clubs and community building events.
